

IMPORTANT BOARD MEETING: At 12:30 P.M., July 9th -- Just before our Regular Meeting. Please do your best to make it. Constitution says at least three (3) Board Meeting a year and we aren't doing too well! Show Committee Chairmen please bring a written report of what you did and any comments -- good and bad -- that will help insure a good show next year.

PROGRAM: Carol Kennedy has prepared an excellent program on Hoyas, a genus with many succulent or near succulent members. She has rented slides from Loyce Andrews in Texas and we are in for some surprises!

PLANT OF THE MONTH: Haworthias, common and uncommon -- an uncommon succulent in that it doesn't like sun! The printed sheet on this program will appear with next month's newsletter along with that month's Plant of The Month. You can look forward to two informative and interesting sheets of "plant reading".

This month:

There will be a PLANT TABLE -- Visit the WHITE ELEPHANT TABLE --

--And be sure and bring BRAGGING PLANTS to share--

THANK YOU! At the June Meeting, our President, Mary Belle Wallenhorst thanked all those who helped with our part in Fiesta de Flores and those who helped with our Show. But not all who helped were able to make the meeting, and to make sure all hear, here it is in print, "THANK YOU!"

LAST MONTH: We were going to have Carol's program on Hoyas, but because Mrs. Andrews was very ill, she didn't get the slides sent in time. So Caro Christiancy, on very short notice, gave a very interesting program, with slides on Echeverias.

Don't forget to keep in mind the idea suggested at the last meeting regarding choosing a permanent name for our yearly Show. A name that people could remember and recognize from year to year would be a great promotion for our club. So, remember to write your wonderful ideas down and bring them into share.

See Anne Marie Goodwin at the next meeting and VOLUNTEER for BRING COOKIES or other refreshments!

Meeting JULY 9, 1978; 1:30 P.M.
BOARD MEETING Preceding the
Regular Meeting at 12:30 P.M.
