

SOUTH COAST CACTUS AND SUCCULENT SOCIETY
REGULAR MEETING, NOVEMBER 9, 1975; 1:30 P. M.
South Coast Botanic Gardens
26701 Rolling Hills Road
Palos Verdes Peninsula

Stan Oleson, President

NOMINATIONS AND ELECTION

In November, ~~the Nominating Committee makes its report to the Club and~~ members may make nominations from the floor. Elections are then held.

PROGRAM

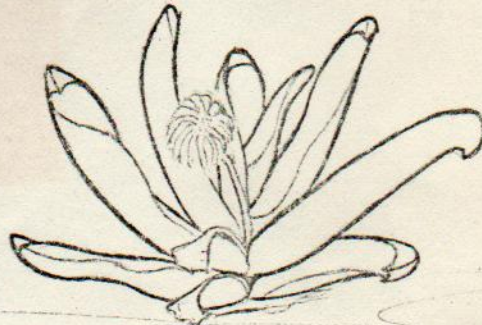

We have the good fortune and pleasure of having Margaret Emery for our speaker. Her subject is Death Valley and since Margaret is an excellent photographer, actually being in Death Valley is the only possible improvement over this Program.

PLANT OF THE MONTH

A large group of genera, the Mesembryanthemums, is Bob Causey's subject this month. Everyone has some, so bring along some for demonstration - give Bob a hand. We have been a little lax in helping supply examples of the plant of the month lately, and since Bob has the plant table to supply, he doesn't have the room for too much else.

LAST MONTH

We made the planned trip to Teggelberg's after some delay. When the bus didn't arrive at the appointed time, Bess headed for the phone and discovered there was a mixup by the Bus Co. about when we were to go. Fortunately they had a bus that was available and they found a driver. All who went had a very good time and came home with nice plants.
