

SOUTH COAST CACTUS AND SUCCULENT SOCIETY  
 REGULAR MEETING, JUNE 12, 1977; 1:30 P.M.  
 South Coast Botanic Gardens  
 26300 Crenshaw Blvd., Palos Verdes Peninsula

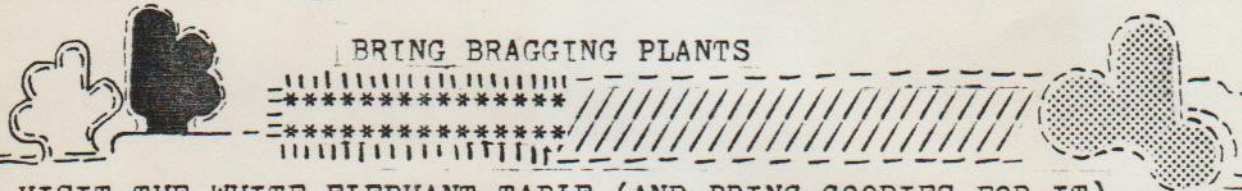

Eleanor Barker  
 President

SHOW COMMITTEE MEETING: at 12:30 in the regular meeting place just preceeding the regular meeting. All committee chairmens please be there. This is the meeting when we bring our written comments on what was done well and any improvements we can make next time. All members are welcome.

PROGRAM: Victor Turecek will be with us with more on his travels in search of cacti. His excellent photography and enthusiasm always means a good time and lots of information for us.

PLANT OF THE MONTH: Carol Sauer has chosen to tell us about a monotype - a genus of one species - Carnegia gigantea. We often don't realize we don't know that much about something so obvious we can't ignore it, but instead take it for granted. This magnificent plant is probably one of these.

BRING BRAGGING PLANTS

VISIT THE WHITE ELEPHANT TABLE (AND BRING GOODIES FOR IT)

LAST MONTH: Bob Causey presented a program on Euphorbias. After a short talk on their sexual reproduction - not all Euphorbias have male and female parts in the same flower or even on the same plant - we enjoyed slides he showed of various Euphorbias in gardens and pots.

OUR SHOW - DESERT MAGIC was a great success. The plants were beautiful, displays well done and we had a lot of vistor's - and gained some new members. In spite of a quite unexpected problem with the plant sale, we did very well. Everyone pitched in and worked hard. We got together a very good selection of plants both donated and purchased. We have a wonderful membership of cooperative, hard working people capable of taking responsibility on short notice and working so well together it seemed more like play - until it was over and weary bones said it was pretty rugged play! We can be very proud of ourselves and our Club.
