

South Coast Cactus and Succulent Society
meeting May 11, 1980 at 1:30 P.M.
at the South Coast Botanic Gardens
26300 Crenshaw Blvd.
Palos Verdes Peninsula

MAY PROGRAM: In anticipation of our
upcoming June show, a short program
of slides taken of entries in past
shows will be presented. Tips on
plant grooming and reminders of
what judges are looking for when it

comes to awarding prizes will also be reviewed.

REFRESHMENTS for our May meeting will be provided by Anna Shadle, Minnie Ruth
Lester, Bert Muensterman and Margaret Brennen.

*Special Note -- There will be no books checked out from the club library this
month; AND, if you have a book that you've borrowed please return it at this
May meeting. The books are needed for identification of plants to be entered
in the show.

MAY PLANT OF THE MONTH: *Bowiea*, a member of the Liliaceae family will be pre-
sented by Eleanor Barker. Known as the "climbing onion" this curiously shaped
succulent is a native of South Africa.

BRING YOUR BEAUTIFUL BLOOMING BEAUTIES IN FOR THE BRAGGING PLANT TABLE.

Last Month: A warm and gracious "thank you" goes out to all our members attend-
ing our April anniversary for providing such a wonderful spread of food.
THANKS goes to Barbara Allen for presenting our Bragging Plant Table in sub-
stitution for traveling Val Oleson.

Last month's program gave us a glimpse of some of the diverse cultures that
developed in the Americas, in regions inhabited by many of our favorite plants.
We looked at the beautiful art work of the Zuni, Hopi and Navaho Indians of the
Southwest. Along with an examination of the rich and varied history of the
ancient Incas. Keep the Incas in mind. We will be returning to this part of
the world again in July, as we visit the Atacama desert, in Chile with Ed and
Betty Gay.

LAST CALL BEFORE SHOW AND SALE TIME!

Check your show plants for pests, mineral deposits on the pots
and stray leaves. Tidy them up and label them, in preparation for
entry in our show.

Do not forget the plants you have been nurturing for the sale.
A dozen or so is a good contribution toward this annual sale.
Grocery sacks are needed to make carriers for purchased plants in
the plant sale room.

Wooden blocks and boxes, clean empty pots, bricks or any plant
display materials are greatly needed. Bring all you can. Cinder
blocks are also usefull. If you ^{need} assistance with these contact
Phyllis Brunelle and Jack Wadleigh.

This is your show and sale. Plaques and ribbons are being
awarded this year. All judges, clerks, club officers, show/
co-chairmen will be served a buffet luncheon at the Gardens,
prepared by Virginia McNeel and Frances Bruce. Coffee, tea or
punch and cold cuts with all the fixings will be on hand for
the club workers on both Saturday and Sunday. Other goodies
will be supplied by club members.

Check your calendar for the times and dates you have signed up
to work. Please try not to forget your duty to the club and the
gardens. Your reward is the bus trip in October.

South Coast

**Cactus & Succulent
Society**

MISSING! WHO HAS THIS ?! Please return the marked copy of Cactus and Succulents from Mother Nature. It must have been picked up by mistake. The owner is/was Norma Holley and she will gladly provide you with an unmarked copy.

NEW AND RETURNING MEMBERS:

Barbara Allen

Hazel Imamura
