

SOUTH COAST CACTUS AND SUCCULENT SOCIETY
REGULAR MEETING, JULY 14, 1974; 1:30 P. M.
South Coast Botanic Gardens
26701 Rolling Hills Road
Palos Verdes Peninsula

President, Stan Oleson

PROGRAM

Bob Causey will give us a lot of information about Echinocereus and illustrate it all with slides.

There will be a plant naming contest with a prize for the person who correctly names the most.

BRING YOUR BRAGGING PLANTS

PLANT OF THE MONTH

Bob has chosen a South American genus, Borzicactus, for this month. If you have some, please bring them. They are a serious type, often inclined to recline (Cereus and prostrate, that is) and have "hooded" flowers - top petals don't open out so far as the rest.

Bring your Borzicactus - Bob will have an extra load this time.

LAST MONTH

Lillian True told us a lot about how to make bonsais out of succulent plants, and put Bob Causey to work shaping a Trichodiadema bulbosum. She gave the trimmings as well as some well started young plants to all who wanted them, along with Pellargonium seeds.

NEW MEMBERS

Mrs. Gladys H. Nielsen

Redondo Beach, Ca, 90277

Walter Meyer

Harbor City, Ca, 90710

Richard Poedke

Rolling Hills Estates, Ca, 90274

Jeanette Waterhouse

Rolling Hills, 90274

NEW ROSTER READY THIS MONTH.
