RIVERSIDE

LAST MONTH: Lillian and Otis True presented a fine program on the genus Trichodiadema. They discussed identification, how to bonsai those with large roots, hanging baskets and care in general. The Trues make their own pots so the plants were in made to order containers to show them off at their best.

BOARD WEETING: There will be a Board Meeting at 12:30 preceeding the November Regular Meeting. Board Members are officers and chairmen of standing (i.e.permanent) committees. Our constitution provides that the business of the club shall be conducted by the Board. If a sufficient number of Board members could please be present and ready to begin at 12:30, we could get some matters taken care of and thus shorten the Regular Meeting. The Board Meeting called for September was not held because it was 1:05 before even one half the Board Members arrived. Please be there and on time! We do have a question or two that need attention.

Other members of the club are welcome as observers, as also provided by our consitution. This limitation on other members is meant to expedite the business of the Board Meeting and then if any observers take exception to decisions of the Board, there is ample opportunity at the regular meetings to raise questions. Also, any expenditure exceeding \$20.00 must be approved by a majority of those present at a regular meeting or properly called special meeting of the club. It seemed appropriate to explain all this because not all members have read our constitution and those of us who have, haven't always remembered it too well -- including yours truly. E.B.!
