#### LAST MONTH

Did you know that a rodenticide tree produces fruit, who's seed yeilds strychnine? Or, that cashew nuts are really seed pods of fruit born on trees--  
macardium occidentale? And, if you wished to build a durable boat that you  
should consider using wood from an avcocado tree? If you heard and enjoyed  
our September featured speaker, Lorin Gillogly, all these wise insights into  
botany would have further enhanced your appreciation of the kinds and variety  
of plant life inhabitating our plant. Mr. Gillogly presented vivid slides on  
the "Tropical Plants of Latin America" -- featuring especially Honduras and  
Guatemala. In Mr. Gillogly's words, "the land where orchids and bromeliads  
grow as weeds."

#### LAST MONTH

Thanks goes to Gladys Axcell for filling - in and conducting our Bragging Plant  
Table.

The deciding vote was taken to hold our annual plant show and sale on the  
weekend of the second Sunday in June -- on the date of our regularly scheduled  
meeting. Further information up coming at future meetings.

A motion was made and voted on to allow Mary Belle Wallenhorst to purchase more  
ceramic pots for sale at regular club meetings.

A special note of thanks goes to Carol Kennedy for preparing the nursery list-  
ing mailed with last months' newsletter.
